DRUG & ALCOHOL CLEARINGHOUSE

https://clearinghouse.fmcsa.dot.gov

FOR OWNER-OPERATORS

- Record
- Consent
- Query
- Safety
Beginning January 6, 2020, you will need to coordinate with your C/TPA(s) to make sure the following requirements are met:

• Report drug and alcohol violations. This will include alcohol test results with a concentration of .04 or greater, refusals to take an alcohol or drug test, as well as actual knowledge of a violation.
• Negative RTD results and the successful completion of a driver’s follow-up testing plan.
• Owner-operators or C/TPAs may report violation information about other drivers employed by the owner-operator. If an owner-operator commits a drug and alcohol program violation, this information must be reported by the C/TPA.
• The information above must be reported by the close of the third business day after the employer or C/TPA is informed.
• Conduct queries to check if prospective employees are prohibited from performing safety-sensitive functions, such as operate CMVs, due to an unresolved drug and alcohol program violation.
• All current employees—including yourself—must be queried at least annually. All queries require driver consent. Queries may be conducted by owner-operators or C/TPAs.
• Until January 6, 2023, you or your C/TPA(s) must conduct both electronic queries in the Clearinghouse and manual, offline inquiries to previous employers for pre-employment driver investigations.

What is the FMCSA Commercial Driver’s License Drug and Alcohol Clearinghouse?

A secure, online database that will give employers and other authorized users real-time information about commercial driver’s license (CDL) and commercial learner’s permit (CLP) holders’ drug and alcohol program violations.

The Clearinghouse will improve safety on our Nation’s roadways by ensuring that commercial motor vehicle (CMV) drivers who violate FMCSA’s drug and alcohol rules and regulations do not perform safety-sensitive functions, such as operate CMVs, until they complete the required return-to-duty (RTD) process.

What is an owner-operator?

An owner-operator is any employer who employs himself or herself as a CDL driver. Owner-operators are subject to the requirements pertaining to employers as well as those pertaining to drivers.

Why register this fall?

Registering before January 6, 2020 is the first step in ensuring you and your company will be ready when the Clearinghouse is operational. Once you are registered, you can take the following actions in the Clearinghouse prior to implementation:

• Verify your information. If you currently have a USDOT Number, the Clearinghouse will pull your contact and company information from other FMCSA systems. Register early to verify this information is up-to-date.
• Designate your C/TPA. As an owner-operator, you are required to work with at least one consortium/third-party administrator (C/TPA). You must designate your C/TPA(s) in the Clearinghouse before they can access the Clearinghouse on your behalf.
• Invite Assistants. Send invitations to other employees who will access the Clearinghouse on your behalf, allowing them to register as part of your company.
• Select and purchase a query plan. You will need to have purchased a query plan before queries can be conducted in the Clearinghouse by you or your C/TPA(s). Learn about the pricing options and select the one that works best for your business needs.
