

CDL LEGAL PROTECTION

Open Road Drivers Plan® has partnered with fleets since 1989 in helping protect carrier CSA scores and keep their drivers on the road through CDL legal services. Give your company and your drivers this added layer of protection.

Our plan extends legal protection to you in the event of violations. We offer reduced costs associated with these violations, allowing you to no longer “just pay the fine.” In addition, carrier memberships allow you to protect and retain your best drivers.

PROTECT YOUR CSA. PROTECT YOUR DRIVERS.

92% SUCCESS RATE Our nationwide network of attorneys allow us to find a CDL attorney from the area in which the driver received their citation. This keeps your driver on the road working for you while the attorney handles the courtroom.

FREE DATAQ CHALLENGES When your drivers get a ticket associated with a DOT inspection dismissed or reduced, we'll submit a DataQ challenge on their behalf, which will improve your BASIC score.

CITATION REPORTING Being aware of driver citations and outcomes is in your best interest. We will provide a monthly report detailing driver, violation, date and location of the incident. Tracking of driver infractions gives you more insight into driver safety.

SAFE DRIVER REWARDS We are the only CDL legal plan that rewards drivers for doing what we all want them to do...drive safe. Safe Driver Reward points are earned through citation-free driving and can be redeemed for more than 750 prizes.
